MEMORANDUM FOR KANSAS AIR AND ARMY NATIONAL GUARD PERSONNEL

SUBJECT: KSANG Fulltime Vacancy Hiring Freeze

1. This memorandum supersedes the 24 November 2014 memorandum, same subject. Effective 15 May 2015, the hiring freeze on all AGR Enlisted and Officer positions is lifted. The change is due to the success in placing AGR members affected by a possible RIF, retirements and projected attrition in the AGR program.
2. 184 IW Technician positions will be advertised with the area of consideration being "onboard permanent members of the 184th" only. If the area of consideration needs to be expanded, justification may be provided to the HRO for approval. The 190 ARW, because they are not in the area of consideration for RIF, will be authorized to advertise their positions with the area of consideration expanded to the Traditional, AGR, and Technician workforce, of all categories, and may also include nationwide in consideration of applicants. Consideration to permanent technicians will be given before other applicants.
3. Point of contact is Lt Col Shayna Holman, DSN 720-8182, commercial 785-274-1182 and email [Shayna.m.holman.mil@mail.mil](mailto:Shayna.m.holman.mil@mail.mil).
